

N-RTimer

NPI's N-RTimer provides precise independent timing in both on and off modes. As an inexpensive alternative to a flow proportional system, the NPI N-RTimer allows you to tailor your pump's output via it's time based control circuitry. Turn to NPI for all your water treatment equipment needs!

Product Specifications

Display: Delay/On

Enclosure: NEMA 4X/IP65 Rated

Operating Voltage: 115 VAC

Relay Contact Rating: 10 AMPS

Shipping Weight: 1 lb.

Warranty: 2 years

Product Features

Solid State Relay

Independently adjustable modes from 1 minute to 100 minutes

Adjustments are only accessible by removing the cover

Lights indicating operation mode

Start up cycle is "on mode"

Recycling continues until supply voltage is removed

Single grounded pigtail to safely operate one 10 amp device without overloading relay

Adjustments easy as 1 2 3!

1. Disconnect the power supply
2. Remove the cover
3. Turn appropriate ON/OFF pod screws (Clockwise increases time cycles)
